PERSONAL INFORMATION

01/01/1985 • (123) 456-7890 • New York, NY • john.doe@example.com

SKILLS

Back-end developer with experience in server-side logic, database management, API integration, and cloud infrastructure.

Backend development: Node.js, Python, Java, SQL, NoSQL, REST, GraphQL

DevOps: Docker, Kubernetes, AWS, Azure, CI/CD

Tools: Git, Jenkins, Terraform, Ansible

PROFESSIONAL EXPERIENCES

TechCorp | Back-end Developer

Jan 2018 - Dec 2022

- Led the development of a microservices architecture, improving system scalability and performance.
- Implemented CI/CD pipelines, reducing deployment times by 40%.
- Collaborated with front-end developers to integrate APIs and improve user experience.
- Managed cloud infrastructure on AWS, ensuring high availability and security.

WebSolutions | DevOps Engineer

Jun 2015 - Dec 2018

- Automated infrastructure provisioning using Terraform and Ansible.
- Set up monitoring and logging systems to ensure system reliability.
- Worked with development teams to optimize application performance.
- Implemented containerization using Docker and Kubernetes.

DataStream | Software Engineer

Mar 2013 - May 2015

- Developed and maintained RESTful APIs for data processing.
- Optimized database queries to improve application performance.
- Collaborated with cross-functional teams to deliver high-quality software.
- Implemented security best practices to protect sensitive data.

NetSolutions | Junior Developer

Jul 2011 - Feb 2013

- Assisted in the development of web applications using JavaScript and PHP.
- Performed code reviews and debugging to ensure code quality.
- Participated in agile development processes and sprint planning.
- Maintained documentation for software projects.

EDUCATIONS

State University - New York, NY

Bachelor in Computer Science

2008 - 2012

Tech Institute - San Francisco, CA

Master in Software Engineering

2013 - 2015

EXTRAS

- Freelancer for 5 years in web development and design, Speaker at multiple tech conferences, including DevOps Days and PyCon
- Experienced in building scalable web applications, API development, and cloud services
